Thanks to high torque, which can be combined with very low rpm output, REB 50 can be also used in very specialized applications.

We pay extra attention to the variability of our motors. We'll make sure that the motor of your choice will be perfectly tuned for the needs of your specific project.

WINDING**

With great continuous power to weight ratio, this category of motors can be used in drones, e-VTOLs – urban mobility projects as well as in other applications. Thanks to the RPM variability, this 50 kw electric motor is also successfully used in electric airships. All motors can be customised exactly according to needs of your specific project.
